This Cultural Mobility Funding Guide presents a mapping of Funding Opportunities for International Cultural Mobility, focused on the African continent.

The main objective of this cultural mobility funding guide is to provide an overview of the funding bodies and programmes that support the international mobility of artists and cultural operators from Africa and travelling to Africa. It also aims to provide input for funders and policy makers on how to fill the existing gaps in funding for international cultural exchange.

This guide is modelled on the Guides to funding opportunities for the international mobility of artists and culture professionals in Europe, Asia, the Arab Region and the USA. You can refer to the methodology of these guides in the document “How to read the cultural mobility funding guides,” included in the European and Asian guides, which were the first of the series.

In the Africa guide you will find funding opportunities relevant to most artistic and cultural disciplines, classified by types of funding organisations. The list includes only regular funding opportunities, whose terms and application procedures are accessible online, and that cover travel costs. (partially or completely).

This guide – whose information was mostly compiled between August-December 2015 by Lara Bourdin, researcher for Art Moves Africa (AMA), in close collaboration with Marie Le Sourd from On the Move (OTM) and thanks to the support of the Korea Arts Management Service – is an attempt to gather all the resources in one document. It draws on extensive online research as well as on previously completed studies: namely, AMA’s studies on mobility and touring in East Africa (2011, 2012) and Central Africa (2015), and The Cultural Mobility Funding Guide – Focus on the 13 Arab Countries (by the Arab Education Forum with OTM with the support of Korea Arts Management Service).

While the guide aims to provide a comprehensive overview of funding opportunities for mobility to/from Africa, it is by no means exhaustive for the following main reasons:

- Funding schemes are regularly subject to change, which may render some information outdated. This is particularly the case for international/regional funding schemes affected by budget cuts, policy changes etc.;
- Some potential funding opportunities could not be identified due to the lack of consistent information available online;
- Most African countries lack national regular funding schemes supporting artists’ mobility, which makes the information highly challenging to identify.
The information is organised according to the following structure:

1) Organisations and funding bodies based in Africa (where South Africa is one of the countries most represented in terms of funding schemes)

2) International organisations with an African focus (where French-speaking countries/“Francophone” countries and the MENA region are the most covered regions in terms of cultural mobility funding support)

3) Global South-focused organisations (where Africa is one of the world regions covered, usually with Latin America and Asia)

4) Bilateral and multi-lateral cooperation schemes (in particular with countries such as France and Germany but also regional entities like the European Union)

5) International prizes, residencies and other support schemes (this part has been added to open the scope of opportunities for African artists and cultural professionals, as funding possibilities specifically targeting them are rather limited)

6) Resources (this section offers tips and advice for African artists and cultural professionals seeking mobility funding and identifies information platforms relevant for the African cultural sector as well as additional funding organisations that do not meet the selection criteria relevant for the cultural mobility funding guide)

We aim to update this guide on a regular basis through further research and input from the field. Your feedback is therefore crucial. You can send your comments, suggestions and corrections to: mobility@on-the-move.org

The researchers wish to thank Charlotte Morantin from the ACP Culture+ programme (funded by the European Union: http://acpculturesplus.eu/) for her advice on funding organisations and schemes.

Special mention shall be also made of the ‘Cultural Mobility Funding Guide – Focus on 13 Arab Countries’, which was compiled by researchers from the Arab Education Forum thanks to the support of Korea Arts Management Service and OTM coordination, and AMA's studies on mobility and touring in East Africa (2011, 2012) and Central Africa (2015).

A French version of the Africa Cultural Mobility Funding guide will be available in Spring 2016 thanks to the support of the Ministry of Culture and Communication-France.

Art Moves Africa

Art Moves Africa (AMA) is an international not-for-profit organisation that aims to facilitate cultural and artistic exchanges within the African continent. AMA offers travel grants to artists, arts professionals and cultural operators living and working in Africa to travel within the African continent in order to engage in the exchange of information, the enhancement of skills, the development of informal networks, and the pursuit of cooperation.

AMA is also active as a research body and as a purveyor of information on cultural mobility opportunities for African cultural professionals. It conducts regular studies on cultural mobility and touring in the various African regions, administers the Mobility Hub Africa (an information platform on the arts and culture in Africa), and shares mobility opportunities through its Facebook page.

AMA is funded by the Norwegian Ministry of Foreign Affairs and Stichting Doen.

Korea Arts Management Service

Since its inception in 2006, Korea Arts Management Service (KAMS) has been striving to enhance the potential of Korean arts by conducting research and surveys, offering consulting services, running educational programmes, and dispensing knowledge and information to arts management professionals. By staying on the cusp of global arts trends, KAMS has developed unique strategies for international exchange with different regions and adds value to the arts in these exchanges through a collaborative network with its overseas partners. KAMS hopes that by taking advantage of our information base and network, artists and others in the arts field can break new ground in the art market and find new value that they can share with one another.

On the Move

On the Move (OTM) aims to facilitate cross-border mobility in the arts and culture sector, contributing to the building of a vibrant European shared cultural space that is strongly connected with the rest of the world. Born as a website, it has evolved into a network which now includes 35+ member organisations in Europe and beyond.

OTM shares information on cultural mobility opportunities and funding on a free and regular basis, through its website, monthly e-newsletters and social media platforms; co-produces free guides and toolkits on cultural mobility and related topics; tackles cultural mobility challenges (e.g., visas, administrative and environmental issues) through reports and meetings, and occasionally co-organises training and events for its members and associated partners.

On the Move is funded by the Ministry of Culture and Communication-France and Relais Culture Europe, as well as through project grants from the Asia-Europe Foundation, Korea Arts Management Service, IETM, GALA project and networks/art and culture-related organisations.

RESOURCES

6.1
Tips for artists and cultural professionals

1. Make sure that you always read the guidelines carefully before getting in touch with the organisation you are interested in (for funding, advice etc.)

2. Contact local branches of European/International cultural institutes (British Council, Institut Français, etc) directly. They may run their own funding schemes and/or provide support for specific projects.

3. Inquire with national government agencies (arts councils, lottery funds, film commissions, etc.) and municipalities. Funding schemes may exist even if they are not necessary online or publicly shared.

4. Contact embassies and consulates. They may run their own support schemes and/or provide advice for specific projects.

5. Contact festivals/event promoters directly. They may provide assistance with funding and/or travel logistics.

6. Contact art centres and residencies directly. Some may offer support with funding research. See list below for art centres that have been cited by artists as funding providers in the past. Also listed are art centres that belong to international networks (Triangle Network, Arts Collaboratory) that may provide funding/other forms of support (administrative for instance) for projects and residencies.

7. Check billboards at local art centres. Funding opportunities are often advertised locally through art hubs. See the list below.

8. Co-financing: Be aware that an increasing number of funding organisations do not accept being the sole funder/supporter for projects and therefore require that applicants search for additional funding partners. Diversity of funding sources is always an added value to a well-defined project proposal.

9. Think in terms of partnerships. Funding bodies increasingly prefer to be associated to a project as partners and not be approached once the said project is almost finalised.
6.2 Potential other sources of funding: Africa

6.2.1 GOVERNMENT BODIES AND ORGANISATIONS

The organisations below offer funding for cultural projects, or have offered funding in the past. However, these funds may not be offered on a regular basis for mobility related projects and/or are not advertised online.
