On the Move

On the Move is the international information network focused on the mobility of artists and cultural professionals that has, in 2023, 66 members in 24 countries. On the Move provides free, up-to-date information on mobility opportunities and funding through its website, social media channels, and monthly multilingual newsletter; co-creates guides and reference documents on professional cultural mobility and related topics; studies and takes action on contemporary issues linked to mobility (such as administrative barriers and ecological challenges); and facilitates learning opportunities and other events for its members and partners.

Co-funded by the European Union and the French Ministry of Culture, On the Move advocates for a fairer, more diverse, and responsible cultural mobility.

Creative Europe Culture Office Spain

The Spanish Creative Europe Culture Office is the body in charge of disseminating the Creative Europe Culture subprogramme in Spain and advising Spanish cultural operators who may apply for the funding opportunities that the Programme offers. The Office, housed in the Spanish Ministry of Culture, provides a permanent information and advice service on the Subprogramme to professional sector, either through the organisation of information and training days or through the participation in external events, personalised attention, publication of promotional material, etc. The Creative Europe Culture Office provides this service, at the request of the European Commission’s Directorate-General for Education and Culture, as the sole National Contact Point for the Culture sub-programme throughout Spain.

Introduction

This updated edition of the Cultural Mobility Funding Guide for the international mobility of artists and culture professionals – Spain is published in November 2023 by On the Move with the support of the Spanish Ministry of Culture and the research of Trànsit Projectes. It gathers and presents information on the organisations and programmes that provide financial support to artists and culture professionals who wish to travel internationally for their work from and/or to Spain.

As with all of On the Move’s Cultural Mobility Funding Guides, this publication aims to provide useful information for artists and culture professionals looking to participate in and finance international opportunities. We hope it also serves as a resource for institutional leaders, policy makers, and private funders at local, national, and international levels, as well as for cultural mobility stakeholders writ large.

This guide lists local, national, and international resources, both public and private. We have only included opportunities that are regularly occurring, accessible online, invite applications through open calls, and that cover at least a portion of international travel costs.

Our research phase took place in September 2023 and drew on extensive online research as well as on previously completed studies. Although we have attempted to be as extensive and accurate as possible, individual entries may be incomplete or become outdated. Please refer to the websites of the listed funds for the most up-to-date information. If you notice errors when reading through this document, you may send comments, suggestions, and corrections to: info@on-the-move.org.

The news section of On the Move’s website gathers and publishes one-off open calls for cultural mobility opportunities. You can also receive a summary of the latest opportunities by subscribing online to our newsletter which is free and sent out every month.
Navigating this Cultural Mobility Funding Guide

There are various reasons a user of this guide might seek mobility funding, including:

- They have been selected for a project in a foreign country (collaboration project, artistic residency, participation in a festival, etc.) but have not been provided with funding for their mobility costs.

- They have developed a project with an international component and wish to invite foreign artists and cultural professionals to one or more place(s) for co-production, touring, market development, etc.

- They are interested in working experiences (including training) in a foreign country and are seeking a way to cover their travel costs.

In light of these different aims, the entries in this guide present the costs that are covered by each scheme, including cross-border travel, visas, per diems, remuneration of collaborators, accommodation, production costs, and other types of support (e.g. translation).

This guide collects:

- Mobility funding opportunities open to nationals and residents of Spain, described as **Outgoing Mobility** (⇐)

- Mobility funding opportunities open to nationals and residents of countries other than Spain, described as **Incoming Mobility** (⇒).

This publication (as with all of *On the Move’s Cultural Mobility Funding Guides*) includes:

- Opportunities provided by a diverse range of funders: international organisations, regional bodies, national institutions, local authorities, private foundations and cultural centres, and more.

- Schemes supporting a variety of mobility formats, including workshops, residencies, travel grants, awards, training programmes, and networking opportunities (among others), with the aim of supporting everything from collaboration to cultural production, professional development, and the evolution of sector-wide practices.
- Only opportunities for which cross-border travel costs are at least partially funded. We also list local, regional, and international programmes that include transnational mobility as a component of their support to artists and cultural organisations in the region.

- Opportunities from all creative disciplines: performing arts (theatre, dance, opera, circus, street arts, etc.); music and sound art; audiovisual arts and film; visual arts (photography, drawing, painting, sculpture, installation, etc.); creative technology (video games, new media, web-based arts, etc.); literature (writing, translation, etc.); craft and design (fashion, architecture, applied arts, etc.); heritage (tangible or intangible, archives, etc.); site-specific, participatory, socially engaged, and/or community-based practices; and curation and cultural management.

Research for this guide included special consideration of schemes that respond to growing, transversal sectoral and societal concerns – particularly programmes that make extra funding available for environmentally sustainable means of travel (where possible), for the needs of disabled artists or caregivers, or for digital or hybrid formats of cross-border collaboration. Though we found that these specific types of funding were not yet widely available in Spain, additional funding was occasionally granted for similarly timely transversal sectoral and societal concerns, such as increasing opportunities for travel to/from Spain’s non-peninsular regions, supporting projects based in or on rural areas (with the goal of decentralising cultural opportunities from solely urban areas), and financing measures that increase the accessibility of cultural projects and productions for spectators with visual and hearing impairments.

This guide specifies the languages in which specific information is available for each mobility opportunity. Information is generally most readily available in Spanish and in several of Spain’s co-official languages (Basque, Catalan, Valencian, and Galician), though it is also available in English, Portuguese, and other languages, depending on the scheme and the funding body.
Introducción

Esta edición actualizada de la Guía de financiación para la movilidad internacional de artistas y profesionales de la cultura - España se publica en noviembre de 2023 por On the Move gracias al apoyo del Ministerio de Cultura de España y el trabajo de investigación de Trànsit Projectes.

Reúne y presenta información sobre las organizaciones y programas que proporcionan apoyo financiero a los artistas y profesionales de la cultura que desean viajar al extranjero por su trabajo, desde y/o hacia España.

Como todas las Guías de financiación de la movilidad cultural de On the Move, esta publicación pretende proporcionar información útil a los artistas y profesionales de la cultura que deseen financiar y participar en oportunidades internacionales. Esperamos que sirva también como recurso para las instituciones, los responsables políticos y los financiadores privados a nivel local, nacional e internacional, así como para las partes interesadas en la movilidad cultural en general.

Esta Guía identifica recursos locales, nacionales e internacionales, tanto públicos como privados. Solo hemos incluido las oportunidades que se ofrecen con regularidad, que son accesibles en línea, que invitan a presentar solicitudes a través de convocatorias abiertas y que cubren al menos una parte de los gastos de viaje internacional.

Nuestra fase de investigación tuvo lugar en septiembre de 2023 y se basó en una amplia investigación en línea, así como en estudios realizados con anterioridad. Aunque hemos intentado ser lo más exhaustivos y precisos posible, las entradas individuales pueden estar incompletas o quedar obsoletas. Para obtener la información más actualizada, consulte las páginas web de los fondos. Si detecta cualquier error al leer este documento, puede enviar sus comentarios, sugerencias y correcciones a: info@on-the-move.org.

La sección de noticias de la página web de On the Move reúne y publica convocatorias puntuales de oportunidades de movilidad cultural. También puede recibir un resumen de las últimas oportunidades suscribiéndose a nuestro boletín en línea, que es gratuito y se envía mensualmente.

Cómo utilizar esta Guía de Financiación de la Movilidad Cultural

Hay varias razones por las que los usuarios de esta guía pueden buscar financiación para la movilidad, entre ellas:

- Han sido seleccionados para un proyecto en un país extranjero (proyecto de colaboración, residencia artística, participación en un festival, etc.) pero no se les ha facilitado financiación para sus gastos de movilidad.

- Han desarrollado un proyecto con un componente internacional y desean invitar a artistas y profesionales de la cultura extranjeros a uno o varios lugares para fines de coproducción, giras, desarrollo de mercados, etc.

- Están interesados en vivir experiencias laborales (incluida la formación) en un país extranjero y buscan una forma de cubrir sus gastos de viaje.

En función de estos diferentes objetivos, las entradas de esta Guía presentan los costes que cubre cada oportunidad, incluidos los viajes internacionales, los visados, las dietas, la remuneración de los colaboradores, el alojamiento, los costes de producción y otros tipos de ayuda (por ejemplo, la traducción).

Esta Guía reúne:

- Oportunidades de financiación de la movilidad abiertas a ciudadanos y personas residentes en España, descritas como **Movilidad Saliente** (⇐).

- Oportunidades de financiación de la movilidad abiertas a ciudadanos de otros países o personas residentes en países distintos de España, descritas como **Movilidad Entrante** (⇒).

Esta publicación (como todas las **Guías de financiación de la movilidad cultural de On the Move**) incluye:

- Oportunidades ofrecidas por una amplia gama de financiadores: organizaciones internacionales, organismos regionales, instituciones nacionales, autoridades locales, fundaciones privadas y centros culturales, entre otros.
- Oportunidades que apoyan diversos formatos de movilidad, como talleres, residencias, becas de viaje, premios, programas de formación y oportunidades de trabajo en red (entre otros), con el objetivo de apoyar desde la colaboración hasta la producción cultural, el desarrollo profesional y la evolución de prácticas sectoriales.

- Sólo oportunidades en las que se financian (al menos parcialmente) los gastos de viaje internacional. También identificamos los programas locales, regionales e internacionales que incluyen la movilidad transnacional como componente de su apoyo a artistas y organizaciones culturales de la región.

- Oportunidades de todas las disciplinas creativas: las artes escénicas (teatro, danza, ópera, circo, espectáculos de calle, etc.); la música y el arte sonoro; las artes audiovisuales y el cine; las artes visuales (fotografía, dibujo, pintura, escultura, instalación, etc.); la tecnología creativa (videojuegos, nuevos medios de comunicación, artes basadas en la web, etc.); la literatura (escritura, traducción, etc.); la artesanía y el diseño (moda, arquitectura, artes aplicadas, etc.); el patrimonio (material o inmaterial, archivos, etc.); las creaciones específicas para un lugar, de manera participativa y socialmente comprometidas o basadas en la comunidad; y el comisariado y la gestión cultural.

La investigación para esta Guía tuvo en cuenta una consideración especial de los programas que responden a las crecientes preocupaciones sectoriales y sociales transversales, en particular los programas que ofrecen financiación adicional para medios de viaje sostenibles desde el punto de vista medioambiental (siempre que sea posible), para las necesidades de artistas con discapacidades o sus cuidadores, o para formatos digitales o híbridos de colaboración transfronteriza. Aunque se observó que estos tipos específicos de financiación aún no están muy disponibles en España, ocasionalmente se conceden fondos adicionales para otras cuestiones sectoriales y sociales transversales, como el aumento de las oportunidades para viajar a/desde las regiones no peninsulares de España, el apoyo a proyectos basados en o sobre zonas rurales (con el objetivo de descentralizar las oportunidades culturales de las zonas exclusivamente urbanas) y la financiación de medidas que aumenten la accesibilidad de los proyectos y producciones culturales para los espectadores con discapacidades visuales y auditivas.

Por último, esta Guía especifica los idiomas en los que está disponible la información concreta para cada oportunidad de movilidad. Por lo general, la información está disponible en castellano y en varias de las lenguas cooficiales de España (euskera, catalán, valenciano, y gallego), aunque también está disponible en inglés, portugués y otros idiomas, dependiendo del programa y del organismo financiador.

**Languages of the scheme** Catalan, Spanish

**Type of mobility**
- “Go and see” or short-term exploration grants
- Market development grants
- Event participation grants
- Travel grants

**Disciplines / artforms**
- Literature (literature, publishing, illustration)

**Eligibility of beneficiaries**
- Nationality.
  - Residents or fiscal residents of Catalonia.
- Target beneficiaries
  - Private businesses, individuals, and companies (publishing houses and literary agencies).
  - Freelance workers who earn a living as illustrators.

**Destination(s)**
- Worldwide

**Other priorities**
- The purpose of these grants is to subsidise the internationalisation projects of companies in the publishing industry that contribute to the presence and marketing abroad of Catalonia’s cultural creation and production in the book sector.
- Cultural creation and production in Catalonia are understood to mean Catalan authorship, i.e. when the author resides in Catalonia or, in the case of deceased authors, when they were born or lived most of their lives in Catalonia.
- This call has two lines of financing: one for the internationalisation of the publishing sector and literary agencies, and another for the internationalisation of illustration work.
- Applicants must have a plan for internationalisation that includes actions programmed from the 31 October of the year before application to the 31 October of the year of application.
- Internationalisation actions should take place outside of Catalonia, either in other areas of Spain or internationally (worldwide).
- Illustrators must be officially registered as freelance workers and must be the authors or coauthors of at least one illustrated literary work published in the 5 years prior to application.

**Type of mobility**
- Event participation grants
- “Go and see” or short-term exploration grants
- Market development grants
- Travel grants

**Disciplines / artforms**
- New media arts (video games)

**Eligibility of beneficiaries**
- Nationality.ies / Place. of residence: Residents or fiscal residents of Catalonia.
- Target beneficiaries:
  - Individuals, private businesses, and private non-profit organisations whose principal objective and activity are the production, edition, distribution, commercialisation, or dissemination of video games.
  - Businesses dedicated to the creation of interactive digital products or services related to culture.

**Destination(s)**
- Worldwide

**Other priorities**
- The purpose of this grant is to subsidise the internationalisation projects of companies and organisations in the field of video games, and of companies that contribute to the presence of interactive, digital cultural products or services abroad. Interactive digital products or services are understood to mean the development of applications, video games and platforms for the consumption or distribution of goods and online products.
- They must be Catalan-authored, i.e., the author must reside in Catalonia and, in the case of deceased authors, must have been born or have lived most of their lives in Catalonia.
- Applicants must have an internationalisation plan that includes actions to be carried out outside of Catalonia, during the period of the grant.
- Applicants must also own the original intellectual property rights to any video games and/or interactive digital services or products, without having obtained them by assignment or any other form of transfer.

6. Additional resources

The resources included in this section do not meet the full criteria for inclusion in other areas of this guide, namely in terms of providing sufficient funding for covering a substantial part of the mobility opportunities’ costs or confirming whether the grants will regularly after 2023. Still, we believe they offer interesting opportunities for artists interested in awards and production grants in Spain. We invite you to take a look, and to share any other potential opportunities or resources with us at: info@on-the-move.org.
